"School days and Teenage nights"

Pondering thoughts, dreaming dreams,
Going to dances, devising schemes.
Planning parties, taking tests,
always remember, NEVER forget.
School days and teenage nights
getting cars and motorbikes.
Watching T.V., drive-in shows,
Where's the time gone? No-one
knows!
Chasing boys and running wild;
your mom still treats you like a
child.
Home by ten, asleep by eleven,
up in the morning for school at
seven.
Graduation comes at last;
we reminisce about the past.
Our high school days have been the
best —
ALWAYS remember, NEVER forget!

SEASONS

The seasons are changing and so am I
I'm starting to tell my childhood good bye
I'm not the little kid I used to be,
In some ways I'm different entirely.
It's a little sad to see children play.
to think I will never again be that way.
Perhaps it is the future I fear,
fear of losing something of the past
that is very dear.
Unlike loved ones, time we cannot hold;
we pass by a mirror and realize
it has made us old.
It's just that the minutes, hours,
and days go by so fast
and happy times of the present
soon become the past.
Yes, it seems just like yesterday
that we were small,
then suddenly years come upon us
and it doesn't seem like time at all.

We, the Echo Staff of 1981, wish to express our appreciation on this page to our advisor, Mr. Glenn Kowalczyk, who unselfishly devoted much of his time, guidance, and assistance to make this yearbook possible.

Message From the Editor

It hardly seems possible that another year has gone by and that for some of us it is our last year. I know we all feel the same when we think over the past years and especially the last four. We all realize that a very important part of our lives is drawing to a close.

We sincerely hope that within this book we have captured and preserved memories for everyone. We hope that someday in the future we will all open this book and again know the joy and friendship of our high school years.

Now I wish to thank the 1981 Echo Staff who worked so hard and long to make this yearbook possible.
